Please accept this as a Comment  
to Black Box Installation in  
Commercial vehicles. NHTSA-02-13546-35  
Notice!

I have been driving tractor trailer  
for over 25 years. I have worked for  
many of the leading companies. Leaving  
because of forced driving abuse by the  
Companies.

The black box would create a safe  
environment for the driver which is the  
question at hand. It would also create  
a substantial financial gain to the driver  
or owner operator and bring wages to a  
point of acceptance.

Thank You

Mike
